

Go through life with less baggage.

Introducing the MessagePad 130 with Newton 2.0.

The farther we go, it seems, the more we're asked to bring with us. The names and numbers of clients past and present. Dates, times, and notes from countless meetings. Not to mention a way to get your e-mail.

The new Apple® MessagePad® 130 was designed to lighten your load by making it easier than ever to schedule work, take notes, send and receive e-mails and faxes—or hop on the Internet—from wherever you happen to be. Even in the dark, thanks to its backlit screen.

The Newton 2.0 operating system: learn less, do more. The award-winning Newton® 2.0 provides a surprisingly familiar way of working that encapsulates all you do now in a simpler, more concise form. Instead of loading you with complex commands, Newton works the way you do. It even reads your handwriting.

Dozens of new and well-known applications, such as Now Contact, ACT!, Quicken, CompuServe, Meeting Maker, and Eudora Pro, are available for Newton, with more coming. Making it easy to transfer information to and from your PC.
